DATA to June 2012

Copyright © Colin Usher 2012 Chicago Latrobe Booker Doris Pillhorn Colin Usher

The spreadsheet-based index compiled and hosted by Colin Usher at www.colinusher.info has been an invaluable resource for hobby and model engineers for many years. Unfortunately, as of July 2012, Colin has no longer been able to update the index.

I am pleased to say that, with Colin's agreement I have taken on the task of keeping the index up to date. I will supply Colin with the updated files to maintain the contuinuity of his site, but this page will be the 'official' home of the index for the foreseeable future.

Notwithstanding my personal involvement with Model Engineers' Workshop magazine, this is a voluntary activity and the index is not linked in any way with MyTimeMedia Ltd. The index is offered as a free service to hobby engineers for personal use only, and it is not intended for commercial use. No liability can be

Issue	Year	Month	Page	Subject	Author	Key Word	Article Title
			-				Simple model from odds and
1	1990	Summer	12	Workshop	Bray, Stan	Plate Vice Filing	ends
1	1990	Summer	14	Metrology	Loader, Bob	Dial Test Indicator Angle Arm	Easily made on a small Lathe
				Martinella	M/ - II	F	Interestingly different 30 45 60
1	1990	Summer	18	Metrology	Wallman	French Square Try Square	and 90 Degrees
